

Dear Valued Customers,

Muth & Company Roofing believes everyone deserves to have a functional roof, especially during times of crisis. With the Stay at Home ordinance in effect, it is important everyone have clean, reliable shelter. We will remain open to help our customers, but in the midst of COVID-19 we have issued the following safety precautions:

- Repair technicians will not meet face to face with customers or enter their homes. The technician will call you when at your property and accept any photos you wish to send via text and/or email in order to help identify the problem location.
- Roof replacement consultations will take place digitally. Our consultants are available to answer your questions, but we must practice proper social distancing in order to protect you and our community.
- We have temporarily reduced our office staff and access to the office in general. Anyone who is able to work remotely is doing so.
- We are posting fun activity ideas on our Facebook page. Staying home doesn't have to equal boredom. <https://www.facebook.com/MuthRoofing/>

Thank you for your patience and understanding. If you have any questions, please call our office at 614-882-0900.

Sincerely,

Muth and Company Roofing
